

Use the below settings in the H2 admin UI dialog box to create the database.

Note: You do not need to give a password. If you need to set a password for the **sa** user, in the H2 Console, in the SQL statement pane, enter the following command: **SET PASSWORD 'yourpassword'**.

Use the below commands to set up the tables, data, and sequences.

```
CREATE TABLE FLIGHT(ID INT PRIMARY KEY,  
AIRLINE VARCHAR(255),  
ORIGIN VARCHAR(255),  
DESTINATION VARCHAR(255),  
DEPARTUREDATE DATE,  
PRICE NUMERIC);
```

```
INSERT INTO FLIGHT(ID,AIRLINE,ORIGIN,DESTINATION,DEPARTUREDATE,PRICE)  
VALUES(1,'AL1','X','SFO',CURRENT_DATE,1000),  
(2,'AL2','X','SFO',CURRENT_DATE,1200),  
(3,'AL3','X','SFO',CURRENT_DATE,1100),  
(4,'AL1','X','LAX',CURRENT_DATE,1300),  
(5,'AL2','X','LAX',CURRENT_DATE,1250),  
(6,'AL3','X','LAX',CURRENT_DATE,1300),  
(7,'AL1','X','SAN',CURRENT_DATE,1100),  
(8,'AL2','X','SAN',CURRENT_DATE,1200),  
(9,'AL3','X','SAN',CURRENT_DATE,1300);
```

```
CREATE TABLE HOTEL(ID INT PRIMARY KEY,  
NAME VARCHAR(255),  
CITY VARCHAR(100),  
STATE VARCHAR(100),  
ZIP VARCHAR(10),  
RATING INT);
```

```
CREATE SEQUENCE SEQ_TRAVEL AS INTEGER START WITH 100;  
CREATE SEQUENCE SEQ_TRAVEL2 AS INTEGER START WITH 100;
```

Your database should look like this in the H2 Console:
